Description: These cranes using wooden cabinet are ideal for arcades, games rooms, kid areas. The dimensions make it the perfect crane freestanding or coupled in a row with one or two other machines from the range. These cranes with advance multi values coin acceptor build in enable machine support 5 kinds of coin. The cranes also with bill acceptor build in. The bonus interface function increase the player's interest. The auto vending (till you win design) add high quality optical sensor with adjustable Percentage Control handset convert the machine into a percentage controlled crane to make the job of percentage and prize set up much fast and easier. The trouble free micro processor controlled system and Long Life gantry with 48V motor ensure unprecedented reliability. The machine also has coin in and prize out for fast and easy bookkeeping.
